DRUPAL 8 : Creation d'un type d'utilisateur : recruteur

The screenshot shows the Drupal 8 user management interface. At the top, there is a navigation bar with links: Back to site, Manage, Shortcuts, admin, and Devel. Below this is a secondary navigation bar with links: Content, Structure, Appearance, Extend, Configuration, People, Reports, and Help. The main content area is titled 'Home > Administration' and contains a '+ Add user' button. Below the button are filters for 'Name or email contains', 'Status' (set to '- Any -'), 'Role' (set to '- Any -'), and 'Permission' (set to '- Any -'). A 'Filter' button is present. Below the filters is an 'Action' dropdown menu set to 'Add the Administrator role to the selected user(s)'. An 'Apply to selected items' button is also present. The main table lists users with columns: USERNAME, STATUS, ROLES, MEMBER FOR, LAST ACCESS, and OPERATIONS. The table contains two rows: 'recruteur' (Active, no roles, 2 months 2 weeks member, 2 months 2 weeks ago last access) and 'admin' (Active, Administrator role, 3 months 1 week member, 38 seconds ago last access). Each row has an 'Edit' button in the OPERATIONS column. At the bottom, there is another 'Apply to selected items' button.

USERNAME	STATUS	ROLES	MEMBER FOR	LAST ACCESS	OPERATIONS
recruteur	Active		2 months 2 weeks	2 months 2 weeks ago	Edit
admin	Active	Administrator	3 months 1 week	38 seconds ago	Edit

Permissions let you control what users can do and see on your site. You can define a specific set of permissions for each role. (See the [Roles](#) page to create a role.) Any permissions granted to the Authenticated user role will be given to any user who is logged in to your site. From the [Account settings](#) page, you can make any role into an Administrator role for the site, meaning that role will be granted all new permissions automatically. You should be careful to ensure that only trusted users are given this access and level of control of your site.
